

BluEnt

BluEnt is a 13 year old company specialized in providing resources for CAD services, Revit drafting, 3D Rendering and Building Information Modeling for all types of architectural, structural and MEP projects across the world.

We set up CAD studio and outsource Revit drafting resources for large home builders, developers, and construction firms to create Revit modeling, BIM modeling and Revit conversion.

With experience on multiple global projects, we have developed an understanding of working collaboratively with owners, home builders, contractors, and stakeholders. Our approach is based on an assured motto – **“Maximum Value. Achieved.”**
